KITCHENS: SOME THINGS TO CONSIDER

Here is a list of some things to consider as you start to think about remodeling your Kitchen:

- What have you established as a budget?
- Will this be a long-term investment?
- Do you wish to work within the existing footprint or do you plan to change the size of your space?
- Do you want to relocate existing plumbing fixtures?
- Is there sufficient lighting/do you want to install additional lighting?
- Is there existing ventilation?
- Do you wish to remodel the kitchen to accommodate any physical limitations, e.g. counter height, or cabinet heights?
- So you have or desire an eat-in area in the kitchen?
- Do you need extra storage?
- What is your appliance wish list?
- Do you want more than one sink?

These are just a few items you should think about in planning your kitchen remodel. We are here to assist you in the myriad of details and choices you make concerning your new kitchen space.

Please give us a call to discuss your project further.

Sincerely,
